tigerturf™ licensee of FIFA

2006: the eyes of the world are upon football and the celebration of the beautiful game.

What better time for TigerTurf to announce the arrival of its full range of technical football surfaces and its status as a licensee of the FIFA Quality Concept.

FIFA 1 star pitch. Milton Keynes UK

All around the world TigerTurf's resources are working in harmony with FIFA to further the playing standards of football and provide the perfect artificial surface for the game.

TigerTurf are the first manufacturer in the UK to become a part of the scheme following approval of their 1 star pitch in Milton Keynes.

A five year contract to supply FIFA recommended pitches for a national consortium has also been signed, to deliver a total concept of quality to the UK football community.

Hot on the heels of this success, the first FIFA Goal project in New Zealand will be supplied from TigerTurf's Auckland headquarters.

TigerTurf are thrilled to be part of the FIFA family. Join our bid to create recognised standards, to ensure global consistency and increase the quality of surfaces worldwide.
